Notes

UNISYS

BANKING BACK-OFFICE PROCESSING OPERATIONS REFERENCE CARD

About Urbis

Use of the product name Urbis is due to be phased out as part of the Unisys re-branding exercise. The replacement will be the generic term of “Banking Back-Office Processing” solution or “Banking Back-Office” for short. To provide continuity with existing product documentation, the name Urbis is used within this document, but is synonymous with Banking Back-Office solution.

HOW TO LOG ON

On the System Logon Screen, enter your:

Usercode

Password

Station Password

Click **OK** or press **Return**

The Previous Log On Screen is displayed. Click **OK** on this screen.

HOW TO SELECT A FUNCTIONAL AREA

When you first log on, click the Front Office icon to view the functional areas available. Select the appropriate icon to view the menus of a functional area.

***Note**: If you are using the Front Office you must select the Front Office icon to view the menus available.*

This card shows the screens available within each functional area.

HOW TO SELECT A SCREEN

Screens are listed under dropdown menus. Click on the menu to open it then select a screen name from the list. Alternatively, use the **Call Screen (F5)** option listed under the **Common menu** and enter the four or five letter mnemonic of the screen and click **OK**.

HOW TO COMPLETE DATA ENTRY SCREENS

Adding Data

1. Select the screen you want.
2. Complete the data entry fields and click **OK**.

Changing Data

1. Select the screen you want.
2. Complete the recall fields and click **Inquire**.
3. Change the data and click **Change**.

Recalling Data

1. Select the screen you want.
2. Complete the recall fields and click **OK** (click **Inquire** if appropriate). The inquiry is then displayed.

Release 10.000
3937 0986-104
February 2009
Printed in the UK

Deleting Data

1. Select the screen you want.
2. Complete the recall fields and click **Inquire**. Check that this is the data you want to delete.
3. Click **Delete**.
4. The system prompts you to confirm the deletion. Click OK to delete the data.

Correcting Errors

Error messages are displayed on the bottom line of the screen or in a separate window: the Application Error window. When you have finished reading the errors in this window, click **OK** to close it and return to the original screen.

To correct errors, you may need to consult your supervisor.

HOW TO MAKE AN ONLINE INQUIRY

1. Select the inquiry screen you require.
2. Complete the mandatory fields and optional fields.
3. Click **OK** (click **Inquire** if appropriate). The inquiry details are then displayed.

HOW TO SELECT A CLIENT AND AN ACCOUNT

When you are performing a banking task, you will often need to select a client or an account so that their details can be moved from screen to screen without the need for re-keying the data.

Selecting a Client

1. Select the client screen you require. For example, the Client Details - Personal (CIPER) screen. The Client Identification (CACII) screen is then displayed.
2. Complete identification field(s) according to the information you have available.
3. Click **OK**. The Client Selection (CASLI) screen is then displayed showing details of any clients that meet your identification criteria.
4. Use the Select Client field to enter the number displayed next to one of the clients.
5. Click **OK**. The screen that you entered in step 1 will display details of your selected client.

   (The client selected will be used for every subsequent client screen until you clear the client via **Clear Memory** in the **Common** Menu).

Selecting an Account

1. Select the account screen you require. For example, the Client Account Maintenance (CAHDR) screen. The Account Identification (CAIDI) screen is then displayed.
2. Complete the identification fields according to the information you have available.
3. Click **OK**. The screen that you entered in step 1 will display details of your selected account.

   (The client selected will be used for every subsequent client screen until you clear the client via **Clear Memory** in the **Common** Menu).

HOW TO PRODUCE A REPORT

1. Select **Run Report** from the **Common** Menu.
2. Complete the fields on the Report Run Parameters screen and click **OK**. If the report has options, the Run Time Options screen is displayed.
3. Enter the options and click **OK**. The report is then produced.

HOW TO CHECK SYSTEM STATUS

Select **System Status** from the **Administration** Menu in the **Security** Menu of the **Operations** Functional Area. This displays the current Urbis system status along with user name, current batch number, Station identifier, etc.

HOW TO LOG OFF

To end a data entry session and log off from Urbis, select **Exit** from the **Urbis Tool Bar,** or **Exit** from the **File Menu**. Do not double click on the Control-menu box (horizontal bar in the top left of the window).

MANAGING WINDOWS

Switching Windows

Select a window from the list of open windows under the **Window** menu. The current window has a tick (✓) beside it.

Re-activating a Window

When you open a new window, it becomes the active window and any other windows become "Read Only". In order to make a "Read Only" window active, you must switch to it and Click the **Refresh** Button that will have appeared. Not all windows can be re-activated in this way. See the *Core Functions and Inquiries Guide* for exceptions.

Closing a Window

Switch to the window that you want to close and click **Close.**
